OLATUNJI ABASS ADEWALE

Remote-Ready Cross-Platform & Full-Stack Developer

(+234) 814 323 6834 | olatunjiabass01@gmail.com | linkedin.com/in/olatunji-abass-adewale | github.com/godswillconcept | godswillconcept.vercel.app

PROFESSIONAL SUMMARY

Results-driven Remote Cross-Platform and Full-Stack Developer with 2+ years of experience shipping production-grade applications for Android, iOS, Web, Windows, Linux, and macOS using Flutter. Experienced in async, remote-first collaboration and delivering end-to-end products independently. Skilled at building robust REST API backends with Node.js/Express and Laravel, and modern front-ends with React.js. Proven ability to architect full product stacks — from Figma design to offline mobile apps to cloud-deployed backends — with 32+ public repositories on GitHub.

TECHNICAL SKILLS

Cross-Platform Mobile:	Flutter (Advanced) · Dart (Advanced) · Android · iOS · Web · Windows · Linux · macOS
State Management:	Provider · BLoC
Backend / API:	Node.js · Express.js · PHP · Laravel · RESTful API · MVC Architecture
Frontend Web:	React.js · HTML5 · CSS3 · Bootstrap · Responsive Design
Databases:	MySQL · PostgreSQL · MongoDB
Cloud & Mobile Services:	Firebase (Auth, Firestore, Realtime DB, Cloud Storage) · Hive · Vercel
Networking & Auth:	Dio · REST · OAuth · JWT
Dev Tools:	Git · GitHub (32+ repos) · Figma · Docker · Webpack · CI/CD · Vercel
Practices:	TDD · Query Optimization · DB Migrations · Modular Architecture · Remote Collaboration
Languages:	Dart (Advanced) · JavaScript ES6+ (Advanced) · PHP (Proficient)

PROFESSIONAL EXPERIENCE

Lead Full-Stack Developer

2024 – Present

Stylay (stylay.com) · Solo · Remote

- Architected and deployed a full-stack premium fashion e-commerce platform with React.js frontend and Node.js REST API backend.
- Engineered a mobile-first responsive shopping experience with modern UI/UX; launched live at stylay.com.
- Built product management, user accounts, order processing, and shipping workflows from scratch as the sole developer.

Cross-Platform Mobile Developer

Jan 2022 – Present

Independent & Collaborative · Remote

- Lead Flutter developer across multiple production apps targeting all six Flutter platforms from a single codebase.
- Translated complex Figma designs into pixel-perfect, responsive Flutter UIs across Android, iOS, Web, Windows, Linux, and macOS.
- Implemented Firebase Authentication and Hive local storage for secure, offline-capable cross-platform apps.
- Engineered REST API integrations using Dio; built rich UIs with carousel sliders, shimmer loading, staggered grids, and rating bars.
- Delivered ChurchPorch — a full church management platform (programs, sermons, donations, choir) — on time with full cross-platform support.
- Built store_hive: a cross-platform e-commerce Flutter app with Hive persistence, Provider state management, and Firebase Cloud Storage.

Full-Stack Developer

Jan 2022 – Present

Alusoft Technologies Ltd · Remote

- Built and maintained full-stack web solutions using Node.js/Express, Laravel, MySQL, and React.js.
- Developed RESTful Node.js/Express backends (MVC pattern) powering both web and mobile clients with MySQL as the data layer.
- Built and deployed a production Node.js e-commerce API to Vercel, demonstrating cloud deployment capability.
- Delivered React.js frontends contributing to a 20% uplift in user engagement on targeted web projects.
- Designed scalable modular codebases and mentored junior developers through structured code reviews.

PROJECTS

Stylay — Premium Fashion E-Commerce Platform

Solo · React.js · Node.js · REST API · Responsive Design · 2024 – Present · stylay.com

- Designed and developed a full-stack premium fashion e-commerce platform with product listings, category browsing, and secure checkout.
- Built a mobile-first responsive frontend with modern UI/UX delivering an optimized cross-device shopping experience.
- Integrated REST API backend for product management, user accounts, and order processing — live at stylay.com.

ecommerce-mobile (store_hive) — Cross-Platform Flutter App

Solo · Flutter · Dart · Hive · Provider · Dio · Firebase · Node.js · Express.js · MySQL · 2022 – Present

- Built comprehensive Flutter UI with carousel banners, staggered product grid, shimmer loading, swipeable cards, and animated Lottie splash screens.
- Integrated Hive for offline product caching, Provider for state management, and Dio for API communication.
- Implemented image picker, international phone field for auth, and flutter_rating_bar for product reviews.
- Platforms: Android · iOS · Web · Windows · Linux · macOS

e-commerce — Node.js REST API Backend

Solo · Node.js · Express.js · MySQL · JavaScript · Vercel · 2022 – Present

- Structured with MVC architecture: separate controllers, models, and routes for maintainability and scalability.
- Handles file uploads (product images), database operations, and serves the Flutter mobile frontend.
- Deployed live on Vercel: e-commerce-eight-psi-90.vercel.app.

ChurchPorch — Church Management Platform

Collaborative · Flutter · Dart · Firebase Auth · Hive · REST API · MySQL · 2022 – 2023

- Church management app handling programs, sermons, donations, and choir — built for Android and iOS.
- Implemented Firebase Authentication, Hive offline caching, and REST API integration with MySQL backend.

Weather-App — Cross-Platform Flutter App

Solo · Flutter · Dart · 2022 – 2023

- Real-time weather application targeting Android, iOS, Web, Windows, Linux, and macOS with live API integration and responsive UI.

EDUCATION

B.Sc. Computer Science

Apr 2021 – Nov 2025

National Open University of Nigeria
